THE SPARE PARTS LIST FOR

THE

1½-LITRE
(VA Type)

THE Spare Parts List

for the

1½-Litre

(VA Type)

Foreword.

The Spare Parts List has been compiled and illustrated to assist as far as possible the correct ordering of replacement parts, and it will be found that the reference numbers on the illustrations correspond with those in the left-hand columns of the spares list.

When ordering replacements it is of the greatest assistance to our Service Department if the part required is given its correct reference number and description, and the chassis, engine and body numbers should be quoted in all correspondence as well as on the order itself, as delay and misinterpretation of orders are thus avoided.

We would also draw your attention to the fact that you will get quicker service if you place all your orders with our Distributors in your territory, who are holding very adequate stocks of M.G. Spares.

The name and address of the nearest Distributors is given in the Instruction Manual supplied with the car, and we feel sure that all your requirements will receive every consideration and attention.

May we request you therefore to get into touch with our Distributors for all your future orders?

We cannot stress too highly the *danger* of fitting non-genuine parts to M.G. cars.

Unfortunately cases have come to our notice where accidents have actually been caused by this practice, and we strongly advise all M.G. owners to insist and see that for all repairs and replacements only genuine M.G. parts are fitted.

M.G. parts are specially designed and manufactured to withstand the stresses imposed by a high-speed sports car, and we would warn all owners that the fitting of non-genuine parts renders the guarantee *null and void*.

The Company only fit the highest grade and best known proprietary fittings, but we give no guarantee whatsoever in respect of tyres, lamps, electrical equipment, speedometers, clocks, or any other proprietary fittings of any type supplied with the car or otherwise, as such proprietary fittings are usually covered by a guarantee issued by their respective manufacturers.

All questions involving the replacement or repair of any such proprietary fittings should therefore be taken up direct with the manufacturers concerned, and not with The M.G. Car Company Ltd. (See list overleaf.)

G.K. — G.T.

November, 1937.
Revised July, 1939.

SPECIAL NOTE REGARDING PROPRIETARY

FITTINGS

All claims for replacement of alleged defective proprietary parts must be referred direct to the respective component manufacturers or their nearest Service Station *and not to The M.G. Car Company Limited.*

New proprietary equipment and component parts can be obtained direct from the manufacturers as listed below or from the Service Department of The M.G. Car Company Limited at current list prices.

<i>Name of Part.</i>	<i>Name and Address of Manufacturer.</i>
Dynamo	J. Lucas Ltd., Great King Street, Birmingham.
